Dear Valued DSD Supplier,

Subject: EDI824 Application Advice for Rejected EDI894 Documents

Beginning Wednesday, November 28th, Kroger will expand the list of EDI824 Application Advices for rejected EDI894 documents. All DSD trading partners who send the EDI894 document to Kroger, **MUST** support the EDI824 Application Advice from Kroger. When an EDI894 document rejects, the EDI894 document does NOT transmit to the store for DSD receiving or payment.

Below is the list of Kroger EDI824 Application Advice messages for rejected EDI894s. Please update your EDI system and DSD process to support these messages.

**KROGER-DSD REGULAR-NEX-894 INVOICING SYSTEM
(Potential Errors)**

ERR TYPE	ERR NO	ERR ELEMENT	ERR MSG	IMPACTED DATA ELEMENT - REJECTION REASON
E	0903	G8207	INVLD INVC DATE; INVC DATE OLDER THAN 28 DAYS AGO	G8207 – Sent an invoice date older than 28 days old
