

Kroger – EDI997 data samples

All 997 Business Examples within this document represent version 5010. Most of these examples display acknowledgments for an 810 IN Group; use the appropriate codes within the AK1 through AK9 segments for identifying the document type and transactions within the Group being acknowledged.

EDI997 – Accepted Status:

Notes:

- Kroger sends the EDI997 with accepted (AK501 = A) status when the EDI transmission being acknowledged met the EDI standards.
- Trading partner will receive EDI824 or error notification when Kroger receives an insufficient or incorrect EDI data transmission as per business requirements though Kroger sends the EDI997 with accepted status.
- It is required to correct and resend the revised EDI data when trading partner receives an EDI824 with fatal errors.

EDI997 – Error Status:

Notes:

- Kroger sends the EDI997 with error (AK501 = E) status when the EDI data has exceptional errors as per the EDI standards.
- Trading partner will receive EDI824 or error notification when Kroger receives an insufficient or incorrect EDI data transmission as per business requirements though Kroger sends the EDI997 with error status.
- It is required to correct and resend the revised EDI data when trading partner receives an EDI824 with fatal errors.
- When trading partner receive EDI997 with error status and there are no EDI824 (Fatal errors) then it is not required to resend the revised EDI data but it is required to correct the errors for future EDI data transmissions.
